1 - 8. Investment restrictions

For further details concerning the investment restrictions and objectives please refer to Section 2.5, of the Prospectus and the relevant Class Fund Schedules respectively.

10. Borrowing

A Class Fund may only borrow for a period not exceeding 61 (sixty-one) days in relation to any specific borrowing transaction. A Class Fund will not be allowed to enter into any leveraging or gearing. Borrowings for the account of each Class Fund shall be restricted so as to ensure that amounts outstanding from time to time do not exceed an amount equal to 10% of the Net Asset Value of the Class Fund save for borrowings on a temporary basis for the purposes of meeting settlement timing differences, redemption requests or defraying operating expenses.

11. Markets/Exchanges (OTC Markets)

In respect of a Class Fund investing in securities, at least 90% (ninety per cent) of the market value of such securities included in the Class Fund will be listed on exchanges having obtained full membership of the World Federation of Exchanges. A Class Fund may not include any unlisted derivative instruments. A Class Fund may for the purpose of efficient fund management include investments in unlisted forward currency, interest rate swap, and exchange rate swap transactions. The investment restrictions applicable to each underlying portfolio are also applicable to each Class Fund, the details of which are located in the Prospectus of each underlying portfolio.

16. Redemption (repurchase) of participatory interests

Unitholders may redeem all or part of their holding on the Subscription Day for the relevant Class Fund in accordance with Section 3 of the Prospectus.

The amount due to Unitholders will be paid within the time period specified for the relevant Class Fund in the relevant Schedule hereto. Payments will be made in the Base Currency of the relevant Class Fund in accordance with instructions included on the Application Form or amended instructions acceptable to the Fund Administrator.

19. Taxation of unitholders

The Fund does not make dividend distributions and whilst there is presently no Capital Gains Tax in Jersey, prospective investors should ascertain from their professional advisers the consequences of transacting Units as described in further detail at Section 7 of the Prospectus.

21. Distributions

Income and capital gains realised by the Fund on its investments will not be distributed by way of dividends and, accordingly, income on investments and increases in the capital value of the investments of the Fund will be reflected in the value of Units.

22. Switching

The Fund offers investors a choice of classes of Units and the opportunity to switch from one class of Units to another. Under no circumstances will a Unitholder who switches between the Units of different Class Funds be given a right by law to reverse the transaction except as a new transaction.

23. Pledging of securities (see 10)

The assets of a Class Fund may only be pledged as security for borrowing (refer to borrowing in par 10 above). If a substantial number of Units are redeemed at one time, the Fund may have to liquidate its positions more rapidly than otherwise desired in order to raise the cash necessary to fund those redemptions. The Fund may find it difficult to liquidate its positions on favourable terms if some of the securities it holds are illiquid. This could result in losses or a decrease in the Net Asset Value of The Fund. If the Manager determines that it is inadvisable to liquidate portfolio assets for the purpose of redeeming Units, the Fund is allowed to borrow the cash necessary for that purpose. The Fund may also pledge portfolio assets as collateral security for the repayment of that borrowing. In these circumstances, the continuing Unitholders will bear the risk of any subsequent decline in the value of the Fund's assets.

Published date: October 2018

This document is for information purposes only and it does not form part of the Alexander Forbes Investments Global Fund (the "Fund") Prospectus, and does not constitute an invitation to subscribe for Units in the Fund. The matters set out herein should not be relied upon for the purposes of making an investment in the Fund. The Fund is an open-ended unit trust, which was established in Jersey on 28 April 1997 as an unclassified fund. The Fund is an unregulated collective investment scheme in the UK and its promotion in the UK is restricted by the Financial Services Act 1986. Unclassified funds are not covered by the Compensation for Investors (Jersey) Regulations 1988. Collective investment schemes (unit trusts) are generally medium- to long-term investments. There is no assurance that the investment objectives of the Fund will actually be achieved. The value of participatory interests (units) may go down as well as up and past investment returns are not necessarily indicative of future returns. The portfolio performance is calculated on a NAV to NAV basis and does not take any initial fees into account. Income is reinvested on the ex-dividend date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Past performance is not necessarily an indication of future performance. Investors are reminded that an investment in a currency other than their own may expose them to a foreign exchange risk. If an investment in the Fund is redeemed at an early stage, the preliminary charge paid upon purchase of Units may exceed any return on the investment in which case investors will not receive the full amount of their original investment. Unit trusts are traded at ruling prices and can engage in borrowing and securities lending. Forward pricing is used. Commission and incentives may be paid and, if so, would be included in the overall costs. The unit trust may borrow up to 10% of the Net Asset Value of the Class Fund to bridge insufficient liquidity. The unit trusts are valued at the end of the day and at their final closing prices. Unitholders may agree to pay additional ongoing advice fees to their appointed financial planners. Completed Application Forms and notification of deposits must be received before 11:00 Jersey time for the investment to be executed on that day. If received after the applicable cut-off time, the money will be invested at the buying price of the following day. The 11:00 Jersey cut-off time also applies to redemptions and switches. The Class Funds that are Feeder Funds only invest in participatory interests of a single underlying collective investment scheme portfolio. The Class Funds that are Fund of Funds only invest in participatory interests of more than one underlying collective investment scheme portfolio, which levy their own charges, which could result in a higher fee structure. The Class Funds are accumulation funds and do not distribute income. At the time of going to press the above information was correct. However, the information is subject to change. A **PROSPECTUS** is available on the website. (Click on the name to download the document.) South African Investors should review the Schedule of Similarities and Differences (the Schedule), reflecting the key differences and similarities between the regulations applicable to the Alexander Forbes Investments Global Fund, and those applicable to South African registered Collective Investment Schemes.
